

30 September 2019

1. The Board and Corporate Governance

The Company's Board is committed to protecting and enhancing shareholder value and conducting the Company's business ethically and in accordance with high standards of corporate governance. In determining those standards, the Company has had reference to the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations* (3rd Edition) ("**ASX Recommendations**") during the reporting period. The Company believes that its practices are substantially consistent with the ASX Recommendations and will continue to adapt its governance practices to be consistent with them and make changes as appropriate, having regard to the nature and scale of the Company's business.

A description of the Company's main corporate governance practices is set out below. These practices reflect the Company's existing corporate governance policies and is current as at 30 September 2019. This statement has been approved by the Board. Copies of the relevant policies are available in the corporate governance section of the Company's website at www.mtgibsoniron.com.au.

2. The Role of the Board and the Board Charter

The Board operates in accordance with the broad principles set out in the Company's Board Charter, a copy of which is available from the Company's website. The Board is responsible for guiding and monitoring the performance of the Company on behalf of Shareholders, to whom they are accountable. Day to day management of the Company's affairs and the implementation of corporate strategies and policy initiatives are delegated by the Board to the Chief Executive Officer and the senior executives as set out in the Board Charter.

The Board Charter sets out the powers and responsibilities of the Board, including:

- charting the direction of the Company, formulating and adopting policies, strategies and financial objectives, and ensuring appropriate resources are available to management;
- monitoring the implementation of policies and strategies, and achievement of those financial objectives and performance against the strategic plan and budgets;
- monitoring compliance with control and accountability systems, regulatory requirements and ethical standards;
- ensuring the preparation of accurate financial reports and statements; and
- encouraging a culture that promotes ethical and responsible decision-making, compliance with legal responsibilities and transparency through effective and timely disclosure.

30 September 2019

Specific powers reserved to the Board in the Board Charter include:

- appointing, removing and monitoring the performance of the Chief Executive Officer and Company Secretary, determining their terms and conditions of employment and ratifying other key executive appointments and planning for executive succession;
- reviewing and approving systems of risk management and internal control and compliance, codes of conduct and legal compliance;
- reviewing and approving financial and other reporting;
- reviewing and approving major capital expenditure, capital management and acquisitions and divestitures; and
- approving the issue of any shares, options or other securities in the Company.

A statement on Board and management functions, which sets out those matters reserved to the Board and the roles and responsibilities of senior management, is in the Board Charter which is available on the Company's website.

3. Chief Executive Officer

The Chief Executive Officer is responsible for running the affairs of the Company under delegated authority from the Board and implementing the policies and strategy set by the Board. In carrying out his responsibilities, the Chief Executive Officer must:

- report directly to the Board;
- provide prompt and full information to the Board regarding the conduct of the business of the Company;
- comply with the reasonable directions of the Board; and
- have regard to the requirements of the ASX Listing Rules and expectations of stakeholders and the wider investment community.

The specific duties of the Chief Executive Officer are set out in the Board Charter.

4. Senior Management Team

Management is responsible for:

- implementing the strategic objectives, and instilling and reinforcing the Company's values, while operating within The MGX Way, codes of conduct, budget and risk appetite set by the Board;

30 September 2019

- all other aspects of the day-to-day running of the Company provided those matters do not exceed the delegated authorities as approved by the Board from time to time; and
- providing the Board with accurate, timely and clear information to enable the Board to perform its responsibilities.

5. Conflict of Interest Policy

The Board has adopted a Conflict of Interest Policy which establishes a protocol under which each Director is required to disclose certain interests and advise the Board in circumstances where a potential conflict of interest may arise. The Conflict of Interest Policy also sets out the procedures to be followed where the Chairman determines that a Director's interest in a matter may result in a conflict of interest occurring.

The Board has established a Contracts Committee to handle negotiations and disputes between the Company and its major shareholders regarding contractual matters such as offtake arrangements.

6. Board Composition

As at the date of this report the Company has six Directors. All are Non-Executive Directors, including the Chairman.

Board composition, size and structure will be reviewed annually to ensure that the Non-Executive Directors between them bring the range of skills, knowledge and experience necessary to direct the Company. The skills, knowledge and experience which the Board considers to be particularly relevant include qualifications and experience in the areas of mining, engineering and project management, accounting and finance, commodities, mergers and acquisitions. The Board is not considering the appointment of additional Directors at this time and considers that its current membership has an appropriate mix of the requisite skills, knowledge, experience and independence for current business needs.

The Board, with the assistance of the Nomination, Remuneration and Governance Committee ("NRGC"), regularly reviews its membership to ensure that it has the appropriate mix of skills and experience required to meet the needs of the Company. When a Board position becomes vacant or additional Directors are required, external professional advisers are engaged to assist with identifying potential candidates and to ensure that a diverse range of candidates is considered. The Company's policy and procedure for selection and appointment of new Directors is available on its website. The Company undertakes appropriate checks before appointing or putting forward a Director for election and shareholders will be provided with all material information in the Company's possession relevant to a decision on whether or not to elect or re-elect a Director.

All Directors, excluding the Managing Director (if any), are required to retire and may stand for re-election by Shareholders, at the third Annual General Meeting (AGM) following their election or most recent re-election.

30 September 2019

Details of skills, experience and relevant expertise for each Director in office, and the period for which each Director has held office, are set out in the Annual Report.

7. Director Independence

The ASX Recommendations define an independent Director as a Director who is free of any interest, position, association or relationship that might influence – or could reasonably be perceived to influence in a material respect – his or her capacity to bring an independent judgment to bear on issues before the Board and to act in the best interests of the entity as a whole rather than in the interests of an individual security holder or other party. The Board determines the independence of Directors.

As directed by the ASX Recommendations, the Board in assessing whether a Director is independent should take into account the following guidelines, in particular whether the Director¹:

- receives performance-based remuneration (including options or performance rights) from, or participates in, an employee incentive scheme of the entity;
- represents, or is or has been within the last 3 years an officer or employee of, or professional adviser to, a substantial shareholder of the Company;
- is employed, or has previously been employed in an executive capacity by the Company or another group member, and there has not been a period of at least three years between ceasing such employment and serving on the Board;
- is or has been, within the last 3 years, in a material business relationship (eg as a supplier, professional adviser, consultant or customer) with the Company or other group member, or is an officer of, or otherwise associated with, someone with such a relationship;
- has close personal ties with any person who falls within any of the categories described above; or
- has been a Director of the entity for such a period that his or her independence from management and substantial shareholders may have been compromised.

The Board has now determined that four of the six Directors currently in office (Messrs Jones, Douglas, Barwick, and Bird) are independent. The Board notes that Mr Jones is an independent non-executive Director of Allied Group Limited and Allied Properties (H.K.) Limited, both of which are substantial shareholders of Mount Gibson. As a consequence of this, Mr Jones does not meet the second criteria above when assessing whether a Director is independent. The applicable ASX Recommendation provides that where any of the specific criteria are not met, but the Board still forms the view a particular Director is “independent”, then the reason for forming that view should be explained. The Board does not consider that Mr Jones’ role as a Director of these entities would influence, or could reasonably be perceived to influence, in any material respect, his capacity to

¹ The Company has adopted the *Corporate Governance Principles and Recommendations* (4th Edition) for assessing independence.

CORPORATE GOVERNANCE STATEMENT

30 September 2019

bring an independent judgment to the Board. In particular the Board took into account the fact that Mr Jones was an independent non-executive Director of both of these entities and had no financial interest in them beyond Director fees. Furthermore at a practical level, the other independent Directors of Mount Gibson have worked with Mr Jones for the last 7 years and believe he has a high level of integrity when making Board decisions and that such decisions were made with independent judgment for the longer term benefit of all shareholders and not particular substantial shareholder interests. Mr Jones is a highly valued member of the Board.

Having reference to the above factors, the Board has determined that the following Directors are not classified as independent:

- Our Chairman, Mr Lee Seng Hui, is a non-executive Director of APAC Resources Limited, which is a substantial shareholder, and holds a controlling interest in a major offtake customer of the Group. Mr Lee is also an executive Director of Allied Group Limited and Allied Properties (H.K.) Limited and through his direct and indirect interests in those entities is deemed to have a relevant interest in APAC Resources Limited's substantial shareholding in Mount Gibson.
- Non-Executive Director, Mr Li Shaofeng, is the Managing Director of Shougang Fushan Resources Group Limited, which is also a substantial shareholder of the Company and up until July 2019 held a controlling interest in a major offtake customer of the Group.

The length of service of each Director is as follows:

- Mr Lee Seng Hui: 9 years
- Mr Simon Bird: 7 years
- Mr Li Shaofeng: 7 years
- Mr Alan Jones: 13 years
- Mr Russell Barwick: 7.5 years
- Prof. Paul Douglas: 7.5 years

8. Chairman and Lead Independent Director

Mr Lee Seng Hui, a representative of Mount Gibson's major shareholder, APAC Resources Limited, is currently Chairman and was appointed with the full support of the Board.

Mr Lee is considered a non-independent Director under ASX Recommendations. The ASX Recommendations suggest an independent Chair is preferable. The Board does not consider that independence of the Chair is essential in light of the objectives and current strategy of the Company and particularly where the Board has a majority of independent Directors. However, in recognition of the ASX Recommendations, the Company has enhanced its corporate governance structure in a way consistent with ASX guidelines by appointing a Lead Independent Director. The role of the Lead

30 September 2019

Independent Director is to manage any actual or perceived conflict situations that might arise with having a non-independent Director as Chair. The Lead Independent Director currently appointed is Mr Simon Bird, who was appointed as an independent Director of Mount Gibson in February 2012 and is also Chairman of the Audit and Financial Risk Committee.

9. Company Secretary

The Company Secretary is accountable directly to the Board through the Chair on all matters to do with the proper functioning of the Board. The role and responsibilities of the Company Secretary are set out in the Board Charter which is available on the Company's website.

10. Terms of Appointment

The Company has signed letters of appointment with each of its Directors consistent with the ASX Recommendations. The Company has written agreements with each of its senior executives setting out the terms of their appointment. The letters of appointment set out matters such as term of appointment, remuneration and other entitlements, time commitment expectation, requirements to disclose any conflicts of interests, when Directors may seek independent professional advice at the expense of the Company, and other matters. These agreements, together with the Company's various charters and policies, make clear each individual's roles and responsibilities.

11. Directors' Access to Independent Advice

The Company recognises that, from time to time, a Director may need to obtain independent expert advice in order to discharge that Director's duties. Any reasonable expenses incurred in obtaining that advice will be met by the Company, provided advance approval is obtained in accordance with the Board Charter. This approval is not to be unreasonably withheld.

12. Professional Development of Board Members

The Company has put in place induction procedures for new Directors of the Company and its controlled entities. A copy of the induction procedures is available on the Company's Website. In addition to these procedures, the Company provides appropriate professional development opportunities for Directors to develop and maintain the skills and knowledge needed to perform their role as Directors effectively.

13. Language Differences

Any Board member who is not fluent in English is able to use the services of a translator to assist with Board communications. Where necessary, all Board papers and relevant periodic reports are provided to the translator at the same time as the relevant Board member so that the papers can be translated prior to the Board meeting for the Board member's benefit. The translator is invited to attend the Board meeting and communicate the Board member's comments, suggestions and decisions as needed. Further, as our Chairman is fluent in both English and Mandarin, if it is needed, the Chair is able to provide additional support for any Mandarin speaking Board members.

14. Board Meetings

The Board meets at least 6 times each year, and full Board meetings are usually held every 2 months. Meetings are convened outside the scheduled dates to consider issues of importance that arise from time to time. Board members are encouraged to visit the Group's operations at least once per year. The Board has established a number of Committees to support the Board function.

Directors' attendances at Board and Committee meetings are detailed in the Annual Report.

15. Board Committees

The Board has established an Audit and Financial Risk Committee, a Nomination, Remuneration and Governance Committee, a Contracts Committee, and an Operational Risk and Sustainability Committee.

Audit and Financial Risk Committee ("AFRC")

The AFRC is currently comprised of Mr Simon Bird, Mr Alan Jones and Mr Lee Seng Hui. Mr Bird is currently the Chair of the AFRC. The AFRC has a formal charter and usually meets 4 times during a financial year. A copy of the Charter is located on the Company's website. Committee members' attendance at AFRC meetings is detailed in the Annual Report.

The AFRC's overall role is to assist the Board in fulfilling its responsibilities for the Company's financial reporting and audit, internal control and financial risks.

The AFRC's specific responsibilities include:

- Assist the Board to meet its oversight responsibilities in relation to:
 - (i) the Company's financial reporting obligations;
 - (ii) compliance with legal and regulatory requirements in relation to financial matters, including accounting standards;
 - (iii) financial internal control structure;

CORPORATE GOVERNANCE STATEMENT

30 September 2019

- (iv) financial risk management procedures;
- (v) the internal audit function where operational; and
- (vi) external audit functions,
- Oversee the Company's relationship with the internal and external auditors (as applicable) and those audit functions generally;
- Oversee the preparation of the financial statements and reports to ensure that they are fair and accurate and comply with the requirements of the Corporations Act and the applicable accounting standards;
- Monitor the Company's financial controls and systems to ensure that they are in place and operating effectively; and
- Manage the Company's processes of identifying and managing financial risk and review the Company's effectiveness in doing so.

The Chief Executive Officer, Chief Financial Officer, internal and external auditor (as applicable) normally attend AFRC meetings however there are occasions where there are meetings just between the auditor and Committee members.

Information on the procedures for selection and appointment of the external auditor, and for the rotation of external audit engagement partners, is set out in the Company's Policy on External Audit.

A copy of this policy is located on the Company's website.

Nomination, Remuneration and Governance Committee ("NRGC")

The NRGC is currently comprised of Mr Alan Jones, Mr Russell Barwick, and Mr Lee Seng Hui. Mr Jones is currently the Chair of this Committee.

The NRGC has a formal charter and usually meets at least 4 times during a financial year. A copy of the Charter is located on the Company's website. Committee members' attendance at NRGC meetings is detailed in the Annual Report.

The NRGC's specific responsibilities include:

- reviewing and recommending to the Board the size and composition of the Board;
- reviewing and recommending succession plans to the Board;
- recommending prospective candidates for appointment to the Board;
- recommending and assisting in the implementation of the process for Board and Director evaluation;

CORPORATE GOVERNANCE STATEMENT

30 September 2019

- making recommendations to the Board on remuneration of Directors and senior executives;
- ensuring the performance of the Chief Executive Officer is reviewed by the Chairman as provided in the Remuneration Policy; and
- review and implementation of corporate governance policies.

Details of the structure of Directors' and senior executives' remuneration are set out in the Directors' Report.

Operational Risk and Sustainability Committee ("ORSC")

The ORSC was established to enhance the risk management process for the Company in respect of operational matters. The ORSC is currently comprised of Mr Russell Barwick, Professor Paul Douglas and Mr Simon Bird. Mr Barwick is the Chair of this Committee.

The ORSC has a formal charter and usually meets at least 4 times during a financial year depending upon operational requirements. A copy of the Charter is located on the Company's website. Committee members' attendance at ORSC meetings is detailed in the Annual Report.

The ORSC's specific responsibilities include:

- assisting the Board to monitor and understand the Company's business and operations so as to assess whether operating risks and sustainability actions are being managed;
- monitoring operational risks and sustainable performance associated with occupational health and safety, environment, development, community and stakeholder relationships, human resources management and optimisation, legal and regulatory compliance, geological resources and reserves, mining, geotechnical, transport and infrastructure, marketing and business risk; and
- reviewing and reporting to the Board as to whether the risk management program is operating effectively, including identification of risk, management of risks, remedial actions for areas of weakness, and auditing processes.

Contracts Committee ("CC")

The CC was established during 2012 as part of the Company's governance review to provide an independent Committee to oversee management's interaction with substantial shareholders regarding areas of major contract negotiations and disputes. The Committee is comprised of independent Directors including Professor Paul Douglas, Mr Alan Jones, Mr Russell Barwick and Mr Simon Bird. Professor Douglas is the Chair of this Committee.

The CC has a formal charter and is required to meet at least once during a financial year and retains the ability to call special purpose meetings if required.

A copy of the Charter is located on the Company's website. Committee members' attendance at CC meetings is detailed in the Annual Report.

30 September 2019

The CC's specific responsibilities include:

- overseeing the work of management in managing and resolving issues and disputes regarding sales agreement matters arising as between the Company and substantial shareholders;
- engaging with substantial shareholders to ensure there is a common understanding of the relationship and business dealings; and
- handling all matters in a balanced and sensitive manner with proper regard to the overall best interests of the Company and all shareholders.

16. Corporate Reporting

The Chief Executive Officer and Chief Financial Officer have made the following declarations to the Board with respect to the FY2019 accounts:

- that the financial records of the Company have been properly maintained;
- that the financial statements and notes give a true and fair view of the financial position and performance of the Company and Group and comply with the Corporations Act 2001 and relevant accounting standards; and
- that the above statements are founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

These declarations are also given in respect of half yearly reports.

17. Integrity of Reporting

The Chief Executive Officer, in conjunction with the senior management team and Company's auditors as required, has primary responsibility to review and verify the accuracy and integrity of all Company periodic reports prior to release to the market. Final approval for release of all periodic reports ultimately rests with the Board.

18. Securities Dealing Policy

The Company has a policy imposing restraints on Directors and Key Management Personnel dealing in the Company's securities. The policy is aimed at minimising the risk of Directors and Key Management Personnel contravening insider trading laws, ensuring the Company is able to meet its reporting obligations under the ASX Listing Rules and increasing transparency with respect to trading

30 September 2019

in the Company's securities by Directors and Key Management Personnel. A copy of this policy is located on the Company's website.

Under the policy, Key Management Personnel must not at any time engage in short-term trading in securities of the Company. Executives are also prohibited from entering into arrangements to protect the value of unvested entitlements under equity-based remuneration plans.

19. Indemnities

The Company has entered into deeds of access, indemnity and insurance with each Director and Executive. These deeds provide:

- rights of access to Company documentation,
- rights of indemnification against liability arising from conduct of the Company's and Group's business; and
- commitments that the Company will provide Directors' and officers' liability insurance coverage,

subject in all cases to limitations imposed by law.

20. Directors' and Senior Executives' Performance Evaluation and Remuneration

During the reporting period the Board commenced a formal process for evaluating the performance of the Board, its Committees and individual Directors. The performance evaluation process is normally completed by September each year. The process for review involved Board members responding to a series of questions and those answers being compiled into a report so as to identify areas of strength and weakness with the objective of improving the overall performance of the Board. The evaluation process involved questions directed at both individual and Board performance.

In conjunction with the Chief Executive Officer, the NRGC annually evaluates the performance of senior executives against both financial and non-financial, corporate and individual performance measures. For the reporting period, the NRGC undertook a review of the Chief Executive Officer and all the senior executives against these performance measures. The review for 2019 was completed in June 2019. Further information about the performance measures are detailed in the remuneration report contained within the Annual Report.

The Company's Remuneration Policy sets out the Company's policies and practices regarding remuneration of Directors and senior executives. A copy of the Remuneration Policy is available on its website.

21. Continuous Disclosure, Shareholder Communications and Investor Relations

The Company has established a Continuous Disclosure policy, identifying the procedure for executives to manage disclosure of material price sensitive information and reporting that information to the Company Secretary for review. The Company Secretary, together with support from the senior management, has primary responsibility for ensuring that all ASX disclosure requirements are met. Board members are given an opportunity to review and approve material ASX announcements prior to release and that after release the relevant announcement is circulated to the Board.

The Company releases all new and substantive investor analyst presentations onto the ASX ahead of the presentation.

The Company has also adopted a policy for Shareholder Communications in order to promote effective communication with shareholders and encourage participation at the Company's annual general meeting. Separately, senior management undertake investor relations activities to ensure effective two-way communications with existing and potential future investors. Such communications are managed in way that is consistent with the Company's ASX disclosure obligations.

Copies of the Continuous Disclosure and Shareholder Communications policies are located on the Company's website.

Shareholders may elect to receive Company reports by mail or e-mail, and similar options exist for communications with the Company's share registry, Computershare. Shareholders have the ability to send communications to the Company and share registry electronically.

Going forward the Company proposes to adopt a practice of requiring all substantive shareholder resolutions to be decided by a poll rather than by a show of hands.

22. Risk Management

The Company recognises that there are multiple risks inherent in everything it does, including financial, operational, safety, legal and compliance, geotechnical, and environmental risks, including loss of opportunities, all of which may impact the success of the business.

The Company is committed to developing and maintaining a risk management system that effectively identifies and controls all areas of substantial risk to the business.

The Company is committed to ensuring risk management is integrated across the business.

The key elements of the Company's Risk Management Policy include:

- identifying and ranking key business risks based on approved risk ranking criteria;
- developing policies and procedures to identify, manage, control and report key risks;

CORPORATE GOVERNANCE STATEMENT

30 September 2019

- provide for remedial action and auditing process;
- having adequate crisis management and business continuity plans;
- insurance programs to transfer residual risk; and
- reporting to the Board of high-level risks.

The Board has delegated responsibility to the AFRC (financial risks) and OSRC (operational and other risks) to review and report to the Board that:

- the Company's ongoing risk management program has effectively identified all areas of material business risk during the financial year;
- adequate policies and procedures have been designed and implemented to manage identified risks;
- a regular program of audits is undertaken to test the adequacy of and compliance with prescribed policies; and
- proper remedial action is undertaken to redress areas of weakness.

The relevant committees have reviewed the Company's risk management framework and have reported on the above periodically during the current financial year.

The Company has in place specific policies and programs addressing certain strategic, financial, operational and compliance risks. Comprehensive reports addressing each of these areas are provided regularly to management and the Board. Controls are in place to ensure that the Company's risks are managed effectively, and the integrity of its financial reporting is preserved, including:

- an annual budgeting process with at least monthly reporting against performance targets;
- Board-approved delegated authority limits that set out authority levels for expenditure and commitments for different levels of management within the Company;
- a Financial Risk Management Policy and an Investment Policy, which establish a risk management framework and procedures for the effective management of the Company's financial risks, including management of investment of surplus cash and foreign currency;
- a capital approval process that controls the authorisation of capital expenditure and investments; and
- a crisis and emergency management system designed to address emergencies at any of the Company's operating sites.

23. Environmental and Sustainability Risks

The Company has published a detailed annual Sustainability Report which is available on the Company's website. The Sustainability Report provides a high-level overview of the Company's different environmental and sustainability risks and how the Company manages those particular risks and the resources dedicated to doing so. Key environmental risks arise with ensuring effective implementation closure and rehabilitation plans, controls over land clearing, prevention of fuel spills, marine damage, and controls over dust emissions, noise emissions, effluent and waste. Management plans and controls are in place to manage each of these particular risks. Other areas of sustainability risk relate to ensuring a safe work environment for all employees and contractors and this is achieved through cultural change, ongoing improvements to safety systems, training and emergency preparedness. All are a major focus for the business. Other sustainability risk areas relate to the management of people and engagement of local communities and are detailed in the Sustainability Report.

24. Economic risks

The Company also has a number of substantive economic risks some of which are already described in the notes to the accounts within the Annual Report. By way of summary the Company considers the following tabled risks to be the most important economic risks for the business.

Economic Risk	Mitigating Factors/Management Approach
Fall in realised commodity prices	<ul style="list-style-type: none">• Consistent monitoring and forecasting of total cash flows.• Scenario planning and budgeting.• Financial Risk Management Policy, including the use of foreign exchange and commodity hedging products from time to time.• Robust balance sheet.

CORPORATE GOVERNANCE STATEMENT

30 September 2019

Economic Risk	Mitigating Factors/Management Approach
<p>Geotechnical event with the Main Pit seawall/footwall resulting in loss of production</p>	<ul style="list-style-type: none"> • Extensive piezometer and movement monitoring systems. • Daily reporting of key data on pore pressure within seawall. • Expert consultancy group overseeing monitoring process with review protocol and escalated reporting requirements for seawall. • Extensive rock bolting and shotcreting for the footwall. • Depressurisation holes in the footwall. • Ground control management plans and survey controls. <ul style="list-style-type: none"> • Detailed geotechnical studies.
<p>Insurance risks – inadequate insurance coverage</p>	<ul style="list-style-type: none"> • Annual insurance review – risk benefit analysis. • Detail risk assessment and controls in place to reduce insurable risk events. • Communication with specialist insurance brokers. • Direct relationships with insurers.
<p>Shiploader destruction or failure</p>	<ul style="list-style-type: none"> • Established berthing procedures and piloting arrangements in place. • Critical spares inventory is carried for certain loader components. • If required arrangements with other port users could be negotiated or temporary transshipping/barging arrangements could also be put in place. • Established engineering contractor relationships which could be called upon for the purpose of fast-tracking shiploader rebuilds and work-around solutions.
<p>Train unloader failure (Geraldton Port)</p>	<ul style="list-style-type: none"> • Critical spares are carried by the Port. • Alternative unloading and haulage arrangements may be possible, including the use of third-party facilities.

CORPORATE GOVERNANCE STATEMENT

30 September 2019

Economic Risk	Mitigating Factors/Management Approach
Regulatory shutdowns (e.g. environmental spill, marine damage, unauthorised clearing)	<ul style="list-style-type: none">• Emergency response capability has been established at all sites, with training undertaken regularly for various incidents including environmental spills.• The Company has established OH&S functions and reporting systems to identify environmental and licensing issues and is able to act promptly to resolve any matters arising.
Poor cost controls	<ul style="list-style-type: none">• Annual budgets and monthly cost review process.• Delegated authority levels for capital expenditure requests.• Contractor management processes.
Cyber security	<ul style="list-style-type: none">• Data security software.• Anti-virus software.• Multi factor authentication.• User awareness education.• Data breach response plan.• Firewall intrusion technology.

25. Auditors

The external auditor attends the annual general meeting and is available to answer shareholder questions about the conduct of the audit, the preparation and content of the auditor's report and the independence of the auditor in relation to the conduct of the audit.

Shareholders also have a right to submit written questions to the external auditor (via the Company) in advance of the annual general meeting, in relation to the contents of the audit report or the conduct of the audit for the relevant year.

Internal Audit function

The Company has had an internal audit function in place that is currently suspended. Until late 2014, the delivery of this function was outsourced to an independent service provider which reported

30 September 2019

functionally to the Chief Financial Officer and regularly to the AFRC. This service provider's internal audit methodology was fully compliant with prevailing International and Australian Standards on Internal Audit. The Company's external statutory auditor does not provide internal audit services to the Company.

While the internal audit function was operating, the work was undertaken using a risk-based annual internal audit plan developed by the independent service provider in conjunction with management and the AFRC. This plan focused upon the assessment of significant risks, processes, systems and regulatory requirements where assurance was determined to be a priority for the period concerned. Management and the AFRC received regular reports on specific processes and controls reviewed, highlighting key findings, associated risks and their impact. Following receipt of these reports, management agreed related actions to address the findings identified.

During the period that the internal audit function remains suspended, the Company continues to review its key risks, including those related to governance and internal controls, on an "as needed" basis, with changes to governance, internal processes and controls being made by management as appropriate. From a financial and accounting perspective, controls are reviewed on an ongoing basis, and are focussed primarily on those areas including daily movement of cash balances and cash investments, sales receivables and letters of credit, inventory control systems for ore stockpiles and consumables, authorisation controls around asset purchases, registers and maintenance procedures, annual impairment testing of stockpiles and mine properties, use of external tax advisors and updating of tax-effect accounting entries at each balance date, accounting systems to track and manage trade creditors and accruals, monthly reconciliation of equipment hire leases, periodic tracking of provisions for employee entitlements and rehabilitation, and ongoing legal review of major contracts.

26. Ethical Standards and Conduct

The Company has developed and published a statement of values known as "The MGX Way" and an Employee Code of Conduct providing a framework of principles for conducting business and dealing with stakeholders. Employees are required to perform and act with integrity, fairness and in accordance with the law and to avoid real or apparent conflicts of interest. In addition, the Company has also established a Board Code of Conduct for Directors, which establishes guidelines for their conduct in carrying out their duties. Copies of The MGX Way and Codes of Conduct are located on governance section of the Company's website. In addition to these Codes, the Company has a Whistleblower Policy and an Anti-Bribery and Corruption Policy that enhances the focus on fair and ethical behaviour.

27. Diversity

The Company wishes to be recognised as an organisation that welcomes diversity and is committed to equality at all levels. The Company has established a diversity policy and this is published on the Company's website. Diversity includes, but is not limited to, diversity in gender, age, ethnicity,

CORPORATE GOVERNANCE STATEMENT

30 September 2019

cultural backgrounds, sexual orientation, gender identity, disabilities, religious beliefs, marital or family status, socio-economic background, perspective and experience.

The Board has set measurable objectives for achieving gender diversity during the period in accordance with the diversity policy and these are provided in the table below, together with performance.

The percentage of women employees in the whole organisation is 17.57%. There are no female members presently on the Board.

Gender Diversity Targets - Measurable objectives

Measurable Objective	Target FY2019	Actual	Comments
Female employees in Mount Gibson	25%	17.57% (2018 – 21.3%)	Below target. Result remains above reported average for mining industry female participation of 16.7% % as reported by WGEA for 2018. The reduction from 2018 reflects the recruitment phase at Koolan Island and the heavy skew to male applicants for site-based positions.
Female employees in executive and senior management roles	25%	19.35% (2018 – 22.22%)	Below target. Result remains ahead of previously reported averages for mining industry female participation in senior management roles of 17.9% % as reported by WGEA for 2018. The executive team of four now has one female representative representing a 25% diversity interest. This is to be compared to the industry average of 15.1% for such roles as reported by WEGA (2018).
Female members on the Board	1	0% (2018 – 0%)	Target remains challenging with no current changes planned to the Board.

The Board recognises that under the ASX Recommendations it is recommended that the Board set a 30% gender diversity target over a specified period. The Board understands the importance and benefits of diversity generally however for Mount Gibson to meet this particular recommendation

CORPORATE GOVERNANCE STATEMENT

30 September 2019

would require at least 2 existing Directors to step down and be replaced, or for 3 additional Directors to be appointed to the Board. At this time no Directors have expressed any interest in stepping down, and from a cost perspective it does not make sense to appoint an additional 3 Directors for a business of the scale and complexity of Mount Gibson. This may change into the future depending upon the direction of the business in terms of complexity, or if a current Director retires. At that time, when a replacement or additional Director needs to be found, gender diversity will be an important consideration for the Board. However, prior to then, for the Board to set a gender diversity target of 30% would be disingenuous. The Board elects not to adopt that particular ASX Recommendation at this time but retain a target of 1 female Director.
